

AURIGLE

AURIGLE

②

FLY! FLY away with the AURICLE!

here is a test-proven, sure-fire aircraft (no DC-10's here), which will hit any target (BUT please--no lecturers: reserve these aircraft for the breaks), preferably non-living!

INSTRUCTIONS (FOR BEGINNER PILOTS)

- A - fold the AURICLE lengthwise in half along the line 1 - 1
- B - next, fold over along both lines 1 - 2 at one end only.
- C - fold over again along lines 1 - 3
- D - finally fold over along lines 1 - 4
- E - last step is to fold back along line 1 - 1
- F - ensure the airline symbol AURICLE is on each wing.
- G - all folds must be accurate and sharp.
- H - PLEASE pick up all fallen airplanes after the classes are over.
- I - This paper aircraft is virtually fool-proof; destination inaccuracies will be probably due to pilot error.

DAFFYDIL WRITERS' MEETING:

Mon. Dec. 10, at 6:00 p.m. in Alumni Lounge. We're going to work this time (but you'll be rewarded!) So be prepared to stick around for a while.

(4)

ONE BIG THANK-YOU!

To 8T3, 8T2, 8T1, 8T0, etc. for the great turnout on Friday at the 8T3's party. You made it what it was--fantastic.

8T3.

GREETING CARDS

(1)

"I want a sympathy card for my sister.
She's marrying an intern."
